

WHY CHOOSE THE POLY SAVI 8200 UC SERIES WHEN WORKING FROM HOME?

Working from home is becoming our new normal and selecting the correct headset is critical to productivity. The Savi 8200 UC Series is an ideal solution to both enable focus and allow the ability to walk away from the distractions or to grab that second cup of coffee. With up to 590 ft / 180 m line of sight range, you can be mobile while still staying connected. The Savi 8220 UC includes active noise canceling (ANC) - blocking out barking dogs and noisy leaf blowers. For those on the far end of the call, the Savi 8200 UC Series also includes configurable Close Conversation Limiting (CCL) - so your voice comes across loud and clear regardless of the chaos around you.

AT A GLANCE

- Escape the noise and roam further with long-range DECT™ wireless technology (up to 590 ft / 180 m line of sight)
- Stay focused with Hi-Fi stereo and ANC (Savi 8220)
- Unlimited talk time with hot swappable battery (Savi 8245)
- Work anywhere by connecting to your PC or MacOS via compact DECT™ USB adapter
- Easy plug and play use - compatible with all UC/softphone applications and Microsoft Teams certified
- Portable design with travel case (Savi 8240 and Savi 8245)
- Convertible over-the-ear, over-the-head, and behind-the-neck wearing options included in the box (Savi 8240 and Savi 8245)
- Interference free DECT™ technology operates on a different frequency to Wi-Fi so poor audio quality is never an issue
- Lightweight design for all-day wearing 21 g (Savi 8240/Savi 8245 over-the-ear)
