

SITUATION

SKC Communications did a full renovation of Black & Veatch HQ. The 7 storied building took multiple phases and over 3 years to complete. The project was logistically interesting as the building was 50% occupied during the whole renovation process. It was a lot of musical chairs between old and newly finished spaces until completion, but SKC managed the project effectively and efficiently.

SOLUTION

SKC Communications designed, built, and managed the project from start to finish. The building consists of conference rooms, an auditorium, training rooms, a boardroom, cafeteria, client briefing rooms, and video conferencing rooms. Standardization was key, as the goal was to have the same experience in each of the room categories.

RESULTS

Small & Medium Conference Rooms

- Audio Reinforcement
- Fusion Scheduling

Large Conference Rooms

- Local Presentation
- Audio Reinforcement
- Fusion Scheduling

Training Rooms

- Local Presentation
- Audio Conferencing
- Audio Reinforcement
- Fusion Scheduling

Auditorium

- Audio Conference
- Audio Mixing
- Broadcasting
- Local Presentation
- Fusion Scheduling

CBC (Client Briefing Center – Multiple High End Spaces)

- Audio Conference
- VTC
- Control System
- Fusion Scheduling

Boardroom

- Voice Activated Camera Tracking
- Audio Conference
- VTC
- Control System
- Fusion Scheduling

Cafeteria

- Audio Reinforcement
- Cable TV Distribution

VTC Rooms

- Video Conferencing
- Fusion Scheduling
