## SKC Communications Acquires GBH Communications

**SHAWNEE, Kan.** June 4th, 2018— SKC Communication Products, LLC announced today it has acquired GBH Communications, a provider of unified communication and collaboration solutions. Headquartered in the Los Angeles area, GBH serves enterprise customers throughout the country.

Following the purchase of TSG in 2017, SKC continues to further increase their presence nationwide with the acquisition of GBH. SKC's expertise in the unified communications space will enrich the products and services available to GBH's existing client base.

"Both SKC and GBH make it their top priority to exceed customer expectations and deliver best-in-class technology. This acquisition brings opportunities for business growth and enhancement, and we are excited about our new colleagues and clients," said Tray Vedock, SKC President and CEO.

Founded in 1986, GBH specializes in video conferencing, audio conferencing, unified communications, headsets, and collaboration solutions. GBH holds some of the highest certifications with the industry's top partners such as Plantronics, Jabra, Polycom, Logitech, and Sennheiser.

"I've known the SKC team for over 20 years and am excited about the next stage of our journey. GBH has been focused on our client's needs from day one, and becoming part of SKC will deeply enhance the solutions and service we can offer our clients," said GBH owner Von Bedikian.

The transaction was effective June 4th, 2018. Following the acquisition, SKC will have over 310 employees nationwide serving their enterprise and education clients.

### About GBH Communications
